UNPRPD	United Nations Partnership on the Rights of Persons with Disabilities
WASH	Water, Sanitation and Hygiene
WCAG	Web Content Accessibility Guidelines
WG-SS	Washington Group Short Set
ZBB	Zero-Based Budgeting

FOREWORD

The Government of Kenya remains steadfast in its commitment to fostering an inclusive society where persons with disabilities can fully realize their potential and contribute to national development. This National Action Plan for the Implementation of Global Disability Summit Commitments 2025-2028 marks a crucial continuation of our journey towards achieving comprehensive disability inclusion. Building on the foundations laid by our participation in previous Global Disability Summits, this plan outlines our renewed dedication to translating policy into tangible action.

Kenya has consistently demonstrated leadership in the global disability agenda, notably by co-hosting the inaugural Global Disability Summit in London in 2018 and actively participating in the 2022 Summit in Oslo. These platforms have been instrumental in shaping our national priorities and mobilizing collective action. The commitments contained within this document are a direct outcome of extensive consultations and reflections, including the Kenya Global Disability Mini-Summit 2025, which brought together a diverse array of stakeholders to identify critical gaps and formulate solutions tailored to our unique context.

This Action Plan is designed to enhance accountability, strengthen coordination and ensure that resources are strategically allocated to address the pressing needs of persons with disabilities across various sectors, including disability inclusion financing, inclusive education and training, inclusive employment and decent work, health equity, accessible infrastructure, political participation and community support and care systems. We recognize that sustained progress demands a multi-sectoral approach, fostering robust partnerships between government, development partners, organizations of persons with disabilities, civil society and the private sector.

I am confident that with the collective resolve and dedication of all stakeholders, this National Action Plan will drive transformative change, ensuring that every person with a disability in Kenya enjoys their fundamental rights and has equitable access to opportunities. We pledge to monitor its implementation rigorously and remain responsive to emerging needs, truly embodying the principle of "Leave No One Behind."

DR. ALFRED MUTUA, EGH
CABINET SECRETARY
MINISTRY OF LABOUR AND SOCIAL PROTECTION

ACKNOWLEDGMENT

The State Department for Social Protection and Senior Citizen Affairs extends its profound gratitude to the technical teams and all stakeholders who dedicated their expertise, time and resources to the development of this National Action Plan on the Implementation of the Global Disability Summit Commitments 2025-2028. This comprehensive document is a testament to the collaborative spirit that underpins Kenya's commitment to disability inclusion.

Special appreciation goes to the Disability Inter-Agency Coordinating Advisory Committee (IACAC), whose invaluable insights, drawn from diverse expertise and extensive experience in disability matters, were central to shaping these commitments. Their guidance ensures that this plan is not only ambitious but also practical and reflective of the lived experiences of persons with disabilities across our nation. The support from our development partners, organizations of persons with disabilities (OPDs), civil society organizations and the private sector has been instrumental throughout the consultative processes, particularly during the Kenya Global Disability Mini-Summit 2025.

We acknowledge the Ministry's leadership for providing the necessary support and resources, facilitating the effective coordination that led to this robust Action Plan. The State Department is resolute in its commitment to enhanced coordination and diligent implementation of the disability agenda. Our collective goal is to empower persons with disabilities to achieve their full potential and contribute meaningfully to the socio-economic development of Kenya.

JOSEPH M. MOTARI, CBS
PRINCIPAL SECRETARY
STATE DEPARTMENT FOR SOCIAL PROTECTION AND SENIOR CITIZEN AFFAIRS

1. INTRODUCTION

Kenya's commitment to advancing the rights and inclusion of persons with disabilities is a cornerstone of its national development agenda, deeply rooted in the principle of "Leave No One Behind". This commitment has been consistently demonstrated through active participation in global forums and the development of progressive national policies and action plans. This document, the National Action Plan for Implementation of Global Disability Summit Commitments 2025-2028, outlines the strategic framework for Kenya's continued efforts in this critical area.

The journey towards comprehensive disability inclusion gained significant momentum with the first Global Disability Summit (GDS), co-hosted by Kenya, the UK Government and the International Disability Alliance in London on July 24, 2018. This landmark event aimed to elevate global attention on disability, mobilize new national and international commitments and showcase best practices in line with the Sustainable Development Goals (SDGs) and the UN Convention on the Rights of Persons with Disabilities (CRPD). At GDS 2018, Kenya made specific commitments focusing on tackling stigma and discrimination, inclusive education, routes to economic empowerment, harnessing technology and innovation and cross-cutting themes of conflict and humanitarian settings and gender issues for women and girls with disabilities.

Building on this foundation, Kenya actively participated in the second Global Disability Summit (GDS 2022), co-hosted by Norway and Ghana in Oslo from February 16-18, 2022. During GDS 2022, Kenya reiterated its dedication by making renewed commitments aligned with CRPD and SDG thematic areas, including inclusion in crisis and conflicts, capacity strengthening of Organizations of Persons with Disabilities (OPDs), inclusive education, inclusive health and inclusive livelihoods, with gender as a cross-cutting theme. Notable achievements from the 2018-2022 period included the development of the Disability Awareness Creation Booklet, establishment of Community-Based Rehabilitation (CBR) sub-committees and the ratification of the Protocol to the African Charter on Human and Peoples Rights on Rights of Persons with Disabilities in Africa. Significant investments were also made in vocational training, economic empowerment programs and the operationalization of the NCPWD Career Portal for job seekers with disabilities. Furthermore, the Government employed the Washington Group of Short Questions in the 2019 National Population and Housing Census to capture disability data, leading to the launch of the Disability Inclusive Data Charter Action Plan.

This 2025-2028 Action Plan emerges from the third Global Disability Summit (GDS 2025), co-hosted by the International Disability Alliance (IDA), the Government of Germany and the Government of Jordan, held from April 1st to 3rd, 2025, in Berlin, Germany. It represents Kenya's consolidated efforts to assess progress, address persistent challenges and articulate new, ambitious commitments to deepen disability inclusion across all sectors of society.

2. DEVELOPMENT OF THE GLOBAL DISABILITY SUMMIT COMMITMENTS 2025-2028

KENYA GLOBAL DISABILITY MINI-SUMMIT 2025

Kenya successfully hosted its Global Disability Mini-Summit 2025 from February 26th to 28th, 2025, in Nairobi. This significant event was a collaborative effort between the Government of Kenya, development partners, Organizations of Persons with Disabilities (OPDs), civil society organizations and the private sector. The primary objective of the mini-summit was to provide a vital platform for stakeholders to reflect on the progress made in disability inclusion, share lived experiences, identify existing gaps and develop concrete commitments to enhance disability inclusion in the country.

The mini summit brought together a diverse group of participants, including government representatives, persons with disabilities, policymakers, development partners and private sector leaders, all united by the common goal of advancing the rights and inclusion of persons with disabilities in Kenya. The event saw participation from over 100 in-person delegates and 180 virtual participants, ensuring broad representation from across the country. The discussions over the three days were characterized by their openness, engagement and solutions-driven nature, with both rights holders (persons with disabilities) and duty bearers (government and non-state actors) actively participating in discussions about the progress and challenges in disability inclusion.

The discussions were structured around five key thematic areas: inclusive education, inclusive employment and decent work, health equity, accessible infrastructure, political participation and community support and care systems. These sessions enabled stakeholders to critically evaluate Kenya's progress, highlight best practices and pinpoint areas requiring urgent intervention. A strong emphasis was placed on ensuring that persons with disabilities were at the center of decision-making and policy discussions, reinforcing the fundamental principle of "Nothing About Us Without Us"

GAPS IDENTIFIED DURING THE KENYA GDS MINI-SUMMIT 2025

Despite significant progress in Kenya's disability inclusion efforts, particularly in policy formulation, legal frameworks, budgetary allocations and social protection programs, the mini-summit identified several persistent challenges requiring urgent and sustained intervention.

DISABILITY INCLUSION FINANCING

Under the Access to Government Procurement Opportunities (AGPO), only five percent (5%) of the thirty percent (30%) reserved for special interest groups is allocated to persons with disabilities. Persons with disabilities continue to receive the lowest share of government contracts, indicating a need for strengthened enforcement mechanisms.

The ongoing reforms in the Integrated Financial Management Information System (IFMIS) present an opportunity to incorporate mechanisms for flagging, tagging and disaggregating expenditure data, including disability-related spending, which is currently lacking.

- Many Ministries, Departments, Counties and Agencies (MDCAs) lack the necessary expertise to effectively cost disability needs and services under the Zero-Based Budgeting framework.
- Annual budget implementation reports to Parliament by the Controller of Budget (CoB) currently lack dedicated sections outlining how the national budget has addressed the needs of persons with disabilities.

- Policies concerning persons with disabilities often take too long to be aligned with national and international frameworks, as seen with the National Disability Policy and the Persons with Disabilities Act (2003).
- The role of the private sector in funding and supporting disability inclusion remains largely undocumented.
- Disability inclusion is frequently overlooked in development cooperation programs, resulting in limited funding and attention to the needs of persons with disabilities.

INCLUSIVE EDUCATION AND TRAINING

- Funding is not differentiated by disability status for learners and trainees, except for deafblindness.
- There is inadequate affirmative action for placement and reasonable accommodation for learners and trainees with disabilities in universities, colleges and technical and vocational institutes.
- The lack of sufficient dedicated learning resource rooms, specialized personnel and adaptive equipment within mainstream schools continues to hinder inclusive education, leading to increased dropout rates and delayed academic progress.
- Limited access to free educational assessments and inadequate capacity of Education Assessment Resource Centers (EARCs) prevent timely identification and appropriate placement of learners with disabilities.

Other identified issues included a shortage of trained special education teachers and interpreters, misalignment of the Basic Education Act (2013) with CRPD and inadequately resourced EARCs.

INCLUSIVE EMPLOYMENT AND DECENT WORK

- There is weak enforcement of the legal framework on the employment of persons with disabilities, with the 5% employment target lacking proper monitoring mechanisms.
- Limited awareness and misconceptions about persons with disabilities in workplaces persist.
- The NCPWD Career Portal has limited usability and versatility, hindering its effectiveness.
- Many government institutions treat disability inclusion as a "tick-box exercise" without long-term job placements.

HEALTH EQUITY

- Limited access to assistive technology (AT) due to inadequate policy implementation, financial constraints and supply chain gaps continues to limit equitable access to essential rehabilitative services across all disability domains.
- There is limited coverage of appropriate treatment and rehabilitative services for persons with disabilities through the Social Health Insurance Fund.
- Limited access to free disability medical testing (especially for children) and unnecessary reassessments for persons with permanent disabilities create barriers to timely identification, certification and access to essential support services.
- Inefficient manual disability assessment processes hinder integration with registration, case management and reporting of functional limitations.

Additional concerns included limited knowledge of disability support systems among health workers, exclusion from Sexual and Reproductive Health (SRH) services due to stigma and lack of trained providers, inadequate specialized rehabilitative services in lower-level hospitals and inadequate access to psychiatric care for persons with disabilities.

ACCESSIBLE INFRASTRUCTURE

- The lack of adjustment orders for accessible public infrastructure, including buildings, roads and transport, continues to exclude persons with disabilities.
- Despite existing legal frameworks, enforcement of universal design principles remains weak.
- Digital platforms often fail to meet international accessibility standards.
- The allocation of affordable housing units for persons with disabilities needs clearer prioritization.

POLITICAL PARTICIPATION

- There is a lack of a dedicated enforcement mechanism for achieving the 5% representation of persons with disabilities in electoral positions.
- Low levels of transparency in nomination procedures mean persons with disabilities lack a say on who should be nominated.
- The number of nominated persons with disabilities representatives in Parliament has significantly declined.

COMMUNITY SUPPORT AND CARE SYSTEMS

- Data inadequacies adversely affect the allocation of resources and policy implementation for persons with disabilities.
- There is a lack of disability-inclusive community support systems.
- There is limited provision of respite care services in the country.
- The existing social protection coverage is insufficient for persons with disabilities who have no income.

HUMANITARIAN AND CLIMATE ACTION

- Persons with disabilities face heightened risks in humanitarian crises due to a lack of inclusive emergency response mechanisms.
- Persons with disabilities are often excluded from climate policy-making and decision-making processes.

3. THE GLOBAL DISABILITY SUMMIT COMMITMENTS 2025-2028

Arising from the extensive discussions and identified gaps during the Kenya Global Disability Mini-Summit 2025, the following commitments were developed and submitted for the 3rd Global Disability Summit in Berlin, Germany.

DISABILITY INCLUSION FINANCING

1. The Government of Kenya commits to enhance expenditure on persons with disabilities in public budgets and to regularly report the expenditures.

- **1.1** The Government of Kenya commits to actualize the requirement that 30% of all government procurement goes to special interest groups, including at least 5% to persons with disabilities, by 2028.
- **1.2** The Government of Kenya commits to flag and tag disaggregated reporting on spending (including disability spending) through the updated IFMIS/SCOA by 2028.
- **1.3** The Government of Kenya commits to strengthen the capacity of MDCAs on disability responsive budgeting by 2028.
- **1.4** The Government of Kenya commits that the Controller of Budget will include in the annual budget implementation reports to Parliament the flagged and tagged disaggregated disability spending by 2028.
- **1.5** The Government of Kenya commits that the office of the Auditor General will include in their monitoring reports sections on disability inclusive spending by 2028.

2. The Government of Kenya commits to enhance policy reforms that will strengthen the inclusion of persons with disabilities in accessing public and private opportunities and services.

- **2.1** KIPPRA will publish at least once in 2 years a comprehensive policy paper on persons with disabilities inclusion in public opportunities and services by 2028.
- **2.2** The Government of Kenya commits to strengthen public private sector partnerships in disability inclusion financing by the end of 2027.

3. The Government of Kenya commits to establish, implement and monitor the requirement that 15% of all development cooperation programs and activities will have disability inclusion as one of their objectives by 2028.

4. Recognizing the urgent need to enhance social protection coverage for persons with disabilities in Kenya, the Government of Kenya in collaboration with UN World Food Programme, commits to continue strengthening legal and policy and financing systems at the national level and in at least two Counties by 2027.

INCLUSIVE EDUCATION AND TRAINING

5. The Government of Kenya commits to invest in a transformative program to implement differentiated capitation and funding for learners and trainees with disabilities at all education levels by 2027.

6. The Government of Kenya commits to implement affirmative action for placement and reasonable accommodation in all universities, colleges and technical and vocational institutes by 2027.

7. The Government of Kenya commits to pilot the provision of dedicated learning resource rooms and specialized support for learners with diverse disabilities in at least 100 mainstream schools in both urban and rural Kenya by 2029.

8. The Government of Kenya commits to provide free educational assessment for children with disabilities and enhance the capacity of Education Assessment Resource Centers (EARCs) to identify cases and place learners with disabilities in appropriate learning institutions by 2028.

INCLUSIVE EMPLOYMENT AND DECENT WORK

9. The Government of Kenya commits to develop a three-year action plan to enhance the enforcement of the legal framework on the employment of persons with disabilities in accordance with Article 27 of the CRPD and ensure accountability through annual monitoring and evaluation reports by 2028.

10. The Government of Kenya, Sightsavers International, the United Disabled Persons of Kenya, Gender and Disability Development Centre (GGDC) and the Kenya Business Disability Network (KBDN) commit to implement awareness raising programmes on disability targeting 400 employers and 10,000 employees in public and private sector by 2027.

11. The Government of Kenya commits to enhance usability and strengthen versatility of the National Council for Persons with Disabilities (NCPWD) Career Portal ensuring that it seamlessly links job seekers with disabilities to job opportunities by 2027.

12. The ILO will support tripartite partners and OPDs through the UNPRPD/Global Disability Fund to enhance participation and employment access for persons with disabilities by operationalizing the reservation of 5% of casual, emergency and contractual jobs in both public and private sectors.

HEALTH EQUITY

13. The Government of Kenya in partnership with AT-Scale commits to invest USD 5,000,000 to expand national assistive technologies provision systems to reach 275,000 persons with disabilities by 2027.

14. The Government of Kenya commits to comprehensively cover appropriate treatment and rehabilitative services across all domains of disability through the Social Health Insurance Fund for all persons with disabilities by 2027.

15. The Government of Kenya commits to ensure free disability medical testing and assessment especially for children with disabilities and abolish reassessment of persons with permanent disabilities by 2029.

16. The Government of Kenya commits to digitize the processes in medical assessment to enhance integration with registration and case management as well as streamlining reporting of functional limitations and support needs by 2029.

ACCESSIBLE INFRASTRUCTURE

17. The Government of Kenya commits to develop regulations for the issuance and enforcement of adjustment orders to enhance accessibility of buildings by 2027.

18. The Government of Kenya commits to develop a national transport accessibility standard to ensure inclusive transportation services by 2027.

19. The Government of Kenya commits to conduct awareness creation and capacity-building sessions on universal accessibility to key stakeholders in infrastructure development, including transport, digital platforms and built environments by 2029.

20. The Government of Kenya commits to ensure that at least 500 government and public digital platforms meet the Kenya accessibility standards on ICT products and services (KS2952 & WCAG (AA)) by 2027.

21. The Government of Kenya commits to give preference to marginalized persons including persons with disabilities in the allocation of affordable housing units by reserving at least 5% of affordable and accessible housing units for persons with disabilities.

POLITICAL PARTICIPATION

22. The Government of Kenya commits to establish a dedicated enforcement mechanism for achieving the 5% political participation for persons with disabilities by 2026.

23. The Government of Kenya commits to reviewing nomination procedures for persons with disabilities in nominative political positions, ensuring nominated persons are fronted by lobby groups of persons with disabilities in various political parties by 2027.

24. The Government of Kenya in partnership with the United Disabled Persons of Kenya commits to capacity build 10,000 persons with disabilities especially those in the marginalized Counties on civic education to increase their participation in political processes by 2027.

COMMUNITY SUPPORT AND CARE SYSTEMS

25. The Government of Kenya and the World Bank in collaboration with other stakeholders commit to invest USD 4,207,267 to undertake a national disability survey and develop disability data collection modules to be incorporated in frequent surveys by 2027.

26. The Government of Kenya commits to establish disability inclusive community care and support systems for persons with disabilities in line with the aspirations of the Persons with Disabilities National Policy 2024.

26.1 UNICEF, through the Disability Inclusion Fund, commits to piloting a community support and care model by 2026.

26.2 The Government of Kenya commits to identify and train at least 1,000 specific foster carers by 2027.

26.3 The Government of Kenya commits to provide specific training on care of children with disabilities to 200,000 parents of and carers of children with disabilities by 2027.

26.4 The Government of Kenya commits to prioritize deinstitutionalization of persons with disabilities by supporting kinship and foster care systems by 2027.

27. The Government of Kenya commits to establish community-based respite care centers for persons with disabilities and their caregivers by 2027.

28. The Government of Kenya commits to pilot the expansion of social protection coverage to persons with disabilities who have no income and caregivers of persons with disabilities.

HUMANITARIAN AND CLIMATE ACTION

29. The Government of Kenya commits to identify persons with disabilities and prioritize them for social protection interventions in situations of risk, including situations of armed conflict, humanitarian emergencies and the occurrence of natural disasters by 2027.

30. The Government of Kenya commits to ensure the meaningful, informed and effective participation of persons with disabilities through their representative organizations in climate policy-making and decision-making processes by 2027.

31. As part of Kenya's commitment and journey of scaling up school feeding to 10 million learners by 2030, the Government, with WFP's support, will promote disability-inclusive climate-friendly home-grown school feeding as a safety net to learners in the ASALs.

4. COORDINATION AND MONITORING MECHANISM

Effective coordination and monitoring are paramount to the successful implementation of Kenya's Global Disability Summit commitments. This National Action Plan 2025-2028 will be overseen by the Disability Inter-Agency Coordinating Advisory Committee (IACAC), established under the Ministry of Labour and Social Protection, State Department for Social Protection and Senior Citizen Affairs.

THE INTER-AGENCY COORDINATING ADVISORY COMMITTEE (IACAC)

The IACAC was established as a strategic response to the need for an inclusive and coordinated approach to addressing disability issues in Kenya. It ensures that the voices and rights of persons with disabilities are effectively represented in the national development agenda. The Persons with Disabilities National Policy 2024, approved by Cabinet on March 11, 2025, underscores the importance of harmonized service delivery and enhanced coordination, mandating the Ministry responsible for disability affairs to lead this effort.

PURPOSE AND MANDATE OF IACAC

The IACAC is entrusted with the mandate to establish task forces or sub-committees on a need basis. These sub-committees may focus on specific disability-related issues, target particular disability groups, or respond to thematic priorities within defined timeframes. The Committee is also empowered to develop comprehensive guidelines that outline coordination mechanisms for the disability sector.

OBJECTIVES OF IACAC

- Enhance multi-sectoral coordination and inter-organizational collaboration to ensure the inclusion of disability concerns across all development policies, mainstream programs and projects.
- Influence and support the development, review and implementation of policies and legislation that protect the rights of persons with disabilities.
- Provide technical and financial support for the implementation of key frameworks and commitments, including the Global Disability Summit Commitments, the African Disability Protocol, CRPD and the 2030 Agenda for Sustainable Development.
- Mobilize and coordinate resources to enable the effective functioning of the Committee and implementation of its mandate.
- Promote cooperation at international, regional, national and county levels, including through the exchange of information, experiences, training programs and best practices.
- Monitor, evaluate and report on disability inclusion efforts across sectors to ensure accountability.

LEADERSHIP AND SECRETARIAT

The IACAC shall be chaired by the State Department for Social Protection and Senior Citizen Affairs, with a Co-Chair drawn from a Non-State Actor. The Secretariat of the Committee shall be jointly managed by the Directorate of Social Development and the National Council for Persons with Disabilities (NCPWD).

5. MONITORING, EVALUATION AND LEARNING MECHANISM

The effective implementation of the Global Disability Summit Commitments 2025-2028 necessitates a robust Monitoring, Evaluation and Learning (MEL) mechanism to track progress, assess impact and foster continuous improvement. This mechanism will be overseen by the Disability Inter-Agency Coordinating Advisory Committee (IACAC), whose objectives explicitly include monitoring, evaluating and reporting on disability inclusion efforts across sectors to ensure accountability, identify gaps, promote evidence-based decision-making and strengthen the overall impact of disability-related initiatives at both national and county levels

KEY COMPONENTS OF THE MEL MECHANISM

Key components of the MEL mechanism for the Global Disability Summit Commitments 2025-2028 will include:

- A detailed **implementation matrix** will be developed for the 2025-2028 period, building on the framework of the previous National Action Plan for Implementation of Global Disability Summit Commitments 2022-2025.
- The IACAC Secretariat is mandated to **track and monitor** the implementation of the Global Disability Summit Commitments 2025-2028, along with their associated activities and strategies, ensuring timely follow-up and reporting. This will involve maintaining comprehensive and up-to-date records of progress.
- The **annual review process** will incorporate input from all members of the IACAC, relevant stakeholders and, where appropriate, external experts. This collaborative approach will help identify strengths, challenges and areas for improvement in the implementation of the commitments.
- **Adaptive Management and Learning** that is based on the findings of these reviews, adjustments may be made to the implementation strategies, resources, or timelines for the commitments to enhance their effectiveness and achievement. This emphasizes a learning-oriented approach, where insights gained from monitoring and evaluation inform future planning and decision-making for disability inclusion.
- The IACAC Secretariat will ensure **documentation and sharing of best practices**, success stories and lessons learned to strengthen the effectiveness of disability inclusion efforts. This will facilitate knowledge transfer and promote replication of successful initiatives across different sectors and regions.

6. IMPLEMENTATION MATRIX

The following implementation matrix details the activities, expected outputs, indicators, responsible parties, timelines and means of verification for each commitment under the eight thematic areas.

A. DISABILITY INCLUSION FINANCING

S/ NO.	Theme	Commitment	Activities	Expected Output	Output Indicator	Responsible Parties	Timeline	Means of Verification
1	Equitable Economic Opportunities	1.1 Actualize 30% government procurement to special interest groups, including at least 5% to persons with disabilities, by 2028.	Review AGPO framework; Develop monitoring tools; Conduct quarterly compliance audits; Publish results on procurement allocations	Increased and enforced procurement allocation for persons with disabilities-owned enterprises under AGPO; monitoring tools and quarterly audit reports operational	% of government contracts awarded to persons with disabilities-owned enterprises (target: 5% by 2028); Number of MDCAs with compliant reporting systems	National Treasury, PPRA, MCDAs	2028	Percentage of persons with disabilities-owned enterprises accessing government contracts
2	Integrated Financial Management Information System (IFMIS)	1.2 Flag and tag disaggregated reporting on spending (including disability spending) through updated SCOA by 2028	Update SCOA to include disability-specific expenditure codes; Train IFMIS administrators; Pilot disaggregated disability spending reporting in at least 5 MDCAs by 2026	IFMIS updated with SCOA disability expenditure tags; MDCAs trained and reporting disaggregated disability spending	IFMIS updated with disability-specific codes (Yes/No); Number of MDCAs piloting disability spending tagging (target: 5 by 2026, all by 2028)	National Treasury, SDSP	2028	Quarterly and annual reports showing disaggregated disability spending
3	Costing Disability Services	1.3 Strengthen the capacity of MDCAs on the cost of services, including disability needs and services	Develop disability costing guidelines and training manuals for MDCAs and county governments; Conduct capacity-building workshops for budget officers; Integrate disability cost estimation into MTEF	Disability costing guidelines and training manuals developed; MDCAs and county governments trained on disability-responsive and zero-based budgeting	Disability costing guidelines developed (Yes/No); % of MDCAs trained on disability-responsive budgeting (target: 100% by 2028); Number of county governments trained	National Treasury, NCPWD	2028	Training programs and guidelines developed for MDCAs; Percentage of government institutions trained

S/ NO.	Theme	Commitment	Activities	Expected Output	Output Indicator	Responsible Parties	Timeline	Means of Verification
			planning cycles					
4	Inclusion of Disability Spending in Budget Reports	1.4 Controller of Budget will include in the annual budget implementation reports to Parliament a section on disability spending by 2028	Develop standardized disability spending reporting template; Establish data collection and verification mechanism; Engage the Office of the Controller of Budget	Standardized disability spending reporting template developed; dedicated disability section included in all CoB annual budget implementation reports	Disability spending reporting template developed and approved (Yes/No); Number of annual CoB budget implementation reports including dedicated disability spending section (target: 1 per year from 2026)	Office of the Controller of Budget (CoB), SDSP	2028	Annual budget implementation reports include a dedicated section on disability spending
5	Inclusion of Persons with Disabilities in Accessing Public and Private Opportunities	2. Enhance policy reforms that will deepen the inclusion of persons with disabilities in accessing public and private opportunities and services; 2.1 KIPPRA to publish at least once in 2 years a comprehensive policy paper on persons with disabilities inclusion by 2028	Commission biennial KIPPRA policy research on disability inclusion; Establish an inclusive stakeholder consultation process; Disseminate policy findings through IACAC and relevant MDCAs	Biennial KIPPRA policy papers on disability inclusion published; findings disseminated and integrated into policy processes	Number of KIPPRA policy papers on disability inclusion published (target: at least 1 every 2 years); Evidence of policy papers informing government policy or legislation	KIPPRA	2028	Regular policy research reports on disability inclusion are published and inform policy formulation
6	Financing for Disability-Inclusive Development Cooperation	3. Establish, implement and monitor that 15% of all development cooperation programs and activities will have disability inclusion as one of their objectives by 2028	Develop disability inclusion guidelines for development cooperation programs targeting 15% minimum integration; Engage development partners to mainstream disability inclusion objectives; Conduct	Disability inclusion guidelines for development cooperation operationalized; 15% of all development cooperation programs integrating disability inclusion objectives by 2028	% of development cooperation programs with disability inclusion objectives (target: 15% by 2028); Disability inclusion tracking tool developed and operational; Number of annual compliance review reports	National Treasury, Ministry of Labour and Social Protection, Development Partners	2028	Inclusion of disability-focused objectives in at least 15% of all development cooperation programs and activities

S/ NO.	Theme	Commitment	Activities	Expected Output	Output Indicator	Responsible Parties	Timeline	Means of Verification
			annual review and compliance reporting		produced			

B. INCLUSIVE EDUCATION AND TRAINING

S/ NO.	Theme	Commitment	Activities	Expected Output	Output Indicator	Responsible Parties	Timeline	Means of Verification
1	Funding for Learners with Disabilities	4. Invest in differentiated capitation and funding for learners and trainees with disabilities at all education levels by 2027	Develop differentiated capitation framework aligned to individual disability needs; Engage National Treasury and MoE to revise funding formulas; Pilot differentiated funding in selected schools and institutions; Develop reporting templates for tracking disbursement and enrolment changes	Differentiated capitation and funding framework for learners with disabilities developed and implemented across all education levels	Number of learners with disabilities receiving differentiated capitation by education level; Percentage increase in enrolment of learners with disabilities	MoE, National Treasury, NCPWD	2027	Enhanced funding allocation
2	Higher Education	5. Implement affirmative action for placement and reasonable accommodation in all universities, colleges and technical and vocational institutes by 2027	Develop and gazette an affirmative action policy framework; Sensitize institutions on implementation; Establish reasonable accommodation standards and support mechanisms; Monitor and report annually on enrolment, retention, and completion rates	Affirmative action policy for placement and reasonable accommodation implemented in all universities, TVETs and colleges by 2027	Number of institutions implementing affirmative action for persons with disabilities; Percentage increase in enrolment and retention of students with disabilities (target: 5%)	KUCCPS, MoE, HELB, OPDs, CUE, TVETA, KENAPC	2027	Increase enrollment and retention of learners and trainees with disabilities in Higher Education by 5%
3	Learning Resource Rooms	6. Provide dedicated learning resource rooms and	Conduct baseline mapping of existing resource	Dedicated learning resource rooms with specialized	Number of mainstream schools with functional resource	MoE, Schools, OPDs, KeNHA, Developmen	2027	Increase in Percentage of schools with resource

			platforms; Document lessons learned and develop scale-up plan					

E. ACCESSIBLE INFRASTRUCTURE

S/NO.	Theme	Commitment	Activities	Expected Output	Output Indicator	Responsible Parties	Timeline	Means of Verification
1	Universal Design and Accessibilit y	17. Develop regulations for the issuance and enforcement of adjustment orders to enhance accessibility of buildings by 2027	Draft regulations for the issuance and enforcement of adjustment orders for building accessibility in consultation with OPDs and industry; Conduct public participation and legal review of draft accessibility regulations; Gazette and disseminate the accessibility adjustment order regulations; Establish an inspection and enforcement system to monitor compliance with adjustment orders	Regulations for issuance and enforcement of adjustment orders for building accessibility developed, gazetted and implemented	Accessibility regulations gazetted; Number of adjustment orders issued; Number of buildings brought into compliance with accessibility standards	NCPWD, National Assembly, OPDs, Ministry of Transport, KENHA, County Governments , NCA, SDSP, NTSA, CA, AG, KLRC	2027	Regulation for the issuance and enforcement of adjustment orders
2	Transport Accessibilit y	18. Develop a national transport accessibility standard to ensure inclusive transportation services by 2027	Conduct a baseline assessment of transport accessibility gaps across road, rail and public service vehicle sectors; Develop national transport	National transport accessibility standards developed and adopted to ensure inclusive and accessible transportation services nationwide	National Transport Accessibility Standards approved; Number of transport service providers complying with standards; Number of	Ministry of Transport, NTSA, NCPWD	2027	National Transport Accessibility standards developed; Number of compliance certificates issued

S/NO.	Theme	Commitment	Activities	Expected Output	Output Indicator	Responsible Parties	Timeline	Means of Verification
			accessibility standards in consultation with persons with disabilities, OPDs and transport regulators; Gazette and disseminate the transport accessibility standards; Establish compliance certification mechanism and enforce standards through NTSA and relevant agencies		compliance certificates issued			
3	Universal Accessibility Training	19. Conduct awareness creation and capacity-building sessions for 4,700 key stakeholders in infrastructure development, including transport, digital platforms and built environments by 2027	Mobilize and register stakeholders for training across target sectors; Develop and implement awareness and capacity-building training programs; Conduct training sessions (workshops and webinars) for stakeholders; Administer and analyze pre- and post-training assessments	Awareness creation and capacity-building sessions conducted for 4,700 key stakeholders in infrastructure, transport, digital and built environment sectors	Number of stakeholders trained (target: 4,700); Number of training sessions conducted; Pre- and post-training knowledge assessment scores	NCPWD, Ministry of Transport, SDSP, NCA, CA, KEBS, OPDs	2029	4700 stakeholders capacity built
4	Digital Accessibility	20. Ensure that at least 500 government and public digital platforms meet the Kenya accessibility standards on ICT products and services (KS2952 & WCAG (AA)) by 2027	Conduct accessibility audits of all government and public digital platforms against KS2952 and WCAG (AA) standards; Develop remediation plans and upgrade non-compliant	At least 500 government and public digital platforms certified as compliant with Kenya accessibility standards KS2952 and WCAG (AA)	Number of government and public digital platforms meeting KS2952 and WCAG (AA) standards (target: 500); Number of accessibility audits conducted; Number of	ICTA, NCPWD, OPDs, CSOs, MDAs, COGs, KEBS, CA	2027	Number of government digital platforms meeting the KS2952 Standard

S/NO.	Theme	Commitment	Activities	Expected Output	Output Indicator	Responsible Parties	Timeline	Means of Verification
			platforms; Establish a mandatory accessibility certification process; Monitor compliance and publish an annual accessibility status report for all 500 targeted platforms		platforms upgraded			
5	Affordable Housing for Persons with Disabilities	21. Give preference to marginalized persons including persons with disabilities in the allocation of affordable housing units by reserving at least 5% of affordable and accessible housing units for persons with disabilities	Develop and operationalize a policy framework for reserving a minimum of 5% of affordable housing units for persons with disabilities; Ensure all affordable housing project designs comply with universal accessibility and design standards; Establish a registration and allocation mechanism to identify eligible persons with disabilities and allocate units; Monitor and report on percentage of units reserved and allocated	At least 5% of affordable housing units reserved and allocated to persons with disabilities in line with Persons with Disabilities National Policy 2024	Percentage of affordable housing units reserved for persons with disabilities (minimum: 5%); Number of persons with disabilities allocated affordable housing; Compliance of housing projects with universal accessibility standards	NCPWD, OPDs, Ministry of Housing, County Governments, NCA, SDSP, NTSA, CA, AG	2029	Percentage of affordable housing units reserved for and allocated to persons with disabilities, with a minimum target of 5%

F. POLITICAL PARTICIPATION

S/NO.	Theme	Commitment	Activities	Expected Output	Output Indicator	Responsible Parties	Timeline	Means of Verification
1	Governance and Coordination	22. Establish a dedicated enforcement mechanism	Develop and gazette a legal and institutional	A dedicated legal and institutional enforcement	Enforcement mechanism established and	AG, National & County Governments, IEBC, OPDs	2027	Mechanism for achieving the 5%

S/ NO.	Theme	Commitment	Activities	Expected Output	Output Indicator	Responsible Parties	Timeline	Means of Verification
		for achieving the 5% political participation for persons with disabilities by 2027	framework for enforcing the 5% persons with disabilities political participation target; Establish an inter-agency enforcement committee with representation from IEBC, OPDs, NCPWD and the AG; Develop monitoring tools to track persons with disabilities representation; Publish annual reports on persons with disabilities political participation and enforcement actions taken	mechanism for achieving the 5% political participation target for persons with disabilities established and operational	operational; Number of enforcement actions taken; Percentage of persons with disabilities representation in political positions; Annual compliance reports produced			quota set
2	Policy Reform	23. Review nomination procedures for persons with disabilities in nominative political positions, ensuring nominated persons are fronted by lobby groups of persons with disabilities by 2027	Undertake a review of existing nomination procedures across all political parties to identify barriers for persons with disabilities; Consult OPDs and persons with disabilities lobby groups to co-develop revised nomination guidelines; Engage the Registrar of Political Parties and IEBC to gazette revised nomination procedures; Monitor implementation of inclusive nomination procedures across all	Nomination procedures reviewed and updated to ensure persons with disabilities are fronted by their representative lobby groups in nominative political positions	Revised nomination procedures gazetted; Number of political parties adopting disability-inclusive nomination procedures; Number of persons with disabilities nominated through OPD-driven processes	Office of the Registrar of political parties, NCPWD, IEBC, AG, OPDs, Parliament, Political Parties	2027	Nomination procedures reviewed

S/ NO.	Theme	Commitment	Activities	Expected Output	Output Indicator	Responsible Parties	Timeline	Means of Verification
			registered political parties					
3	Civic Engagement	24. In partnership with the United Disabled Persons of Kenya commits to capacity build 10,000 persons with disabilities on civic education to increase their participation in political processes by 2027	Mobilize and register persons with disabilities across targeted counties for civic education; Develop and deliver inclusive civic education training programs; Conduct civic education sessions across selected counties; Administer and analyze pre- and post-program assessments and voter registration tracking	10,000 persons with disabilities especially in marginalized counties capacitated on civic education to enhance political participation	Number of persons with disabilities trained on civic education (target: 10,000); Number of counties covered; Percentage increase in registered persons with disabilities voters in targeted counties	NCPWD, IEBC, Civil Society, OPDs, Development partners, SDSP, COG, Ministry of Interior, Media	2027	Number of Persons with disabilities capacity built; Increased percentage of Persons with disabilities in the voter register

G. COMMUNITY SUPPORT AND CARE SYSTEMS

S/ NO.	Theme	Commitment	Activities	Expected Output	Output Indicator	Responsible Parties	Timeline	Means of Verification
1	Governance and Coordination	25. The Government of Kenya and the World Bank commit to invest USD 4,207,267 to undertake a national disability survey and develop disability data collection modules to be incorporated in frequent surveys by 2027	Design the national disability survey methodology and data collection tools using internationally validated instruments including the Washington Group questions; Conduct the national disability survey covering all 47 counties with disaggregated data; Develop and integrate disability data collection	National disability survey completed and disability data collection modules developed for incorporation into regular national surveys	National disability survey report published; Disability data collection module finalized and adopted; Data disaggregated by disability type, age, sex, residency and demographics	KNBS, NCPWD, SDSP and OPDs, CSOs, Development Partners, UN Agencies	2027	Collection module - Inclusive data disaggregated by disability type, age, sex, residency and other important demographics; National disability survey

S/ NO.	Theme	Commitment	Activities	Expected Output	Output Indicator	Responsible Parties	Timeline	Means of Verification
			modules into KNBS regular surveys; Analyse, publish and disseminate national disability survey findings					
2	Community Care and Support Systems	26. Establish disability inclusive community care and support systems for persons with disabilities in line with the aspirations of the Persons with Disabilities National Policy 2024; 26.1 UNICEF, through the Disability Inclusion Fund, commits to piloting a community support and care model by 2026; 26.2 Identify and train at least 1,000 specific foster carers by 2027; 26.3 Provide specific training on care of children with disabilities to 200,000 parents and carers by 2027; 26.4 Prioritize deinstitutionalization of persons with disabilities	Develop a national framework and standards for disability-inclusive community care and support systems; Pilot the UNICEF/Disability Inclusion Fund community support and care model with KAIH, SIK and UDPK in selected counties; Evaluate the pilot model and document lessons learned for national scale-up; Establish county-level coordination mechanisms for disability-inclusive community care delivery	Disability-inclusive community care and support systems established; community support and care model piloted with UNICEF/DIF, KAIH, SIK and UDPK	Community support and care model piloted and evaluated; Number of community-based disability services established; Percentage of persons with disabilities accessing community-based care	SDSP, NCPWD, UNICEF (through Disability Inclusion Fund), KAIH, SIK, UDPK	2026	Piloting of a community support and care model; Percentage of access to community-based disability services
3	Human Support	27. Establish community-based respite care centers for persons with disabilities and their caregivers by 2027	Establish and operationalize respite care centers; Mobilize and register persons with disabilities and caregivers for respite care services; Deliver respite care services through established centers; Monitor utilization and track access to respite care services	Two respite care centers for persons with disabilities established and operational, providing services to persons with disabilities and their caregivers	Number of respite care centers established (target: 2); Number of persons with disabilities and caregivers accessing respite care	SDSP, CoGs, NCPWDs, Council of Governors, OPDs, CSOs, Community, Development Partners, UN Agencies, MDAs	2027	Community structures for care and support established; Number of respite care centers established; Community care and support structures established
4	Transfer	28. Pilot the	Identify,	Social	Number of	SDSP,	2029	A redesigned

	persons with disabilities with no income and caregivers piloted (KES 36M)	with no income enrolled; Number of caregivers covered; Redesigned program approved	gaps for persons with disabilities with no income and caregivers	criteria established	At least 5,000 persons with disabilities and 2,000 caregivers enrolled	data; NCPWD registration records		Treasury, OPDs

H. HUMANITARIAN AND CLIMATE ACTION

S/No	Commitment	Output Indicator	Baseline (2025)	Mid-term Target (2026/27)	End Target (2028)	Data Source / MoV	Reporting Frequency	Responsible Party
H1	Persons with disabilities identified and prioritized for social protection in risk, conflict and disaster situations by 2027	Number of persons with disabilities enrolled in social protection during humanitarian crises; % of emergency response plans with disability inclusion	Persons with disabilities largely excluded from humanitarian response frameworks	Disability-inclusive emergency response protocols developed	Persons with disabilities systematically identified and included in all emergency and disaster response interventions	NDMA reports; MoLSP and SDSP emergency response records	Annual	GoK, SDSP, NDMA, OPDs
H2	Meaningful participation of persons with disabilities in climate policy-making and decision-making processes by 2027	% of climate policies with persons with disabilities participation processes; Number of OPDs engaged in climate decision-making	Persons with disabilities largely excluded from climate policy processes	Participation framework developed; At least 5 OPDs engaged in climate dialogues	Persons with disabilities participation mainstreamed in all climate mitigation and adaptation policy processes	Climate policy consultation records; OPD participation reports	Annual	Ministry of Environment, SDSP, OPDs
H3	Disability-inclusive climate-friendly school feeding promoted for learners in ASALs	Number of learners with disabilities in ASALs accessing school feeding; % of ASAL schools with inclusive feeding programs	Limited disability inclusion in school feeding programs in ASALs	Disability-inclusive school feeding guidelines developed with WFP support	Inclusive school feeding operational in all ASAL counties; All learners with disabilities enrolled	WFP and MoE school feeding reports; ASAL enrollment data	Annual	GoK, WFP, MoE, County Governments

8. CONCLUSION

This National Action Plan for Implementation of Global Disability Summit Commitments 2025-2028 is the culmination of a robust and inclusive consultative process, notably the Kenya Global Disability Mini-Summit 2025 held in Nairobi. This mini-summit served as a vital platform for a diverse array of stakeholders including government representatives, development partners, organizations of persons with disabilities (OPDs), civil society and the private sector to collectively reflect on progress, share lived experiences and critically identify persistent gaps in disability inclusion. The extensive discussions, structured around key thematic areas, ensured that persons with disabilities were at the heart of decision-making, embodying the fundamental principle of "Nothing About Us Without Us".

The commitments outlined in this plan are a direct outcome of these deliberations, addressing critical areas such as disability inclusion financing, inclusive education and training, inclusive employment and decent work, health equity, accessible infrastructure, political participation, community support and care systems and humanitarian and climate action. These ambitious, actionable and time-bound commitments are designed to drive transformative change and bridge identified gaps, from ensuring equitable access to government procurement and assistive technologies to strengthening social protection and fostering political participation. They represent Kenya's renewed dedication to translating policy aspirations into tangible improvements in the lives of persons with disabilities.

Effective implementation of this National Action Plan will be underpinned by a rigorous Monitoring, Evaluation and Learning (MEL) mechanism, overseen by the Disability Inter-Agency Coordinating Advisory Committee (IACAC). This framework, along with the continuous coordination and collaboration among all stakeholders, is crucial to ensuring accountability, fostering evidence-based decision-making and promoting continuous learning. As Kenya advances these commitments, there is a collective resolve to not only meet national and international obligations but also to truly realize the vision of an inclusive society where every person with a disability can participate fully and meaningfully, leaving no one behind.

9. APPENDIX

MEMBERSHIP OF THE INTER AGENCY COORDINATING ADVISORY COMMITTEE

The following is the membership of the Inter-Agency Coordinating Advisory Committee for the period 2025-2028 arranged alphabetically.

S/No	Nominated Member	Nominating Entity	Title of the Member	Type of Organisation
1.	Benson Agesa	Association for the Physically Disabled of Kenya	Head of Programs	Organisation of Persons with Disabilities
2.	Benson Kibet Kiptum	Kenya Society for the Blind	Head of programmes	Organisation of Persons with Disabilities
3.	Dancan Otieno	Federation of Kenya Employers	Projects Manager	Employers Organisation
4.	David Nyariki	Directorate of Immigration Services	Principal Immigration Officer	Government / State Body
5.	Dorothy Anjuri	Kenya RedCross	HOD Health, Nutrition and Social Services.	Non-Governmental Organisation
6.	Elizabeth Amimo	Directorate of Social Development	Senior Social Development Officer	Government / State Body
7.	Eunice Mailu	United Nations World Food Programme	Programme Policy Officer for Social Protection	United Nations Agency
8.	Fatma Wangare	Kenya Association of the Intellectually Handicapped (KAIH)	Country Director	Organisation of Persons with Disabilities
